7 DEAD 20 HURT

Head-On Collision Between Passenger Trains.

Debris Caught Fire Adding to Horror---Surgeons Rushed to Scene of Catastrophe From Sedalia, Mo.

KNOBNOSSER, Mo., July 2.—Six persons were killed and at least thirty-six injured two miles east of here when the fast California special train from St. Louis on the Missouri Pacific collided with the El Paso special train from Kansas City at 20 this morning. The dead: ERD STORY, JOHN HOOD, M. J. BURKE. All three were Western Union line men. W. H. HARDING, mail clerk colored St. Louis. TRAIN PORTER J. W. LISHBACK, St. Louis. One unidentified man. Among the injured were Mrs. William Hornbeck, Washington, D. C.; Mrs. W. A. Little, Walla Walla, Idaho; Agnes Rupprecht, Rosewell, N. M.; bruised arm; Josie Vielling, Rosewell, N. M.; head cut. Both trains were going at full speed. The California special left St. Louis

EL PASO, Texas, July 2.—Engineer Joseph Jones and three Mexicans were instantly killed and several passengers were injured none seriously in the wreck of the Texas and Pacific eastbound passenger train at midnight at Boracho, 156 miles east of El Paso. The train which left El Paso at 4 p. m. Wednesday, ran into a washout at Boracho while trying to make up lost time. The engine, baggage car, smoker and chair car rolled down an embankment. No Pullman passengers were hurt. Fireman Elmer Ellis escaped injury by jumping.

TOWN BURNS

Telephone Exchange Burns in Kentucky Town, Shutting Off All Help.

FRANKFORT, July 2.—Stamping Ground, a village of 700 people nine miles from this city on the Frankfort and Cincinnati Railroad, was practically destroyed by fire which originated in the Maynor Hotel last night. The large Buffalo Springs distillery was destroyed and the flames swept the principal business and residence districts of the town. Owing to poor fire protection in the village an appeal for help was telephoned to Frankfort, Paris and Lexington, but the telephone exchange was consumed by the flames while orders were being given. The loss is not yet known.

SOCIETY GIRLS 'TRAMP' FOR UNIQUE VACATION

MISS AGNES FITTON, WHO IS MAKING A TRAMPING TOUR WITH HER SISTER MARTHA.

Quite the most unique of vacation trips is being enjoyed by two Oakland girls, Miss Agnes and Miss Martha Fitton. The two young ladies left their home in East Oakland on June 1, riding in the electric cars as far as Hayward. From this point the girls commenced their tramp. They arrived in Hollister the Saturday afternoon following, two very tired and dusty mules. The average number of miles walked each day was 18. They made the distance from Gilroy to San Jose in one day. Last week they were the guests of Mr. and Mrs. J. W. Burke of Hollister. Got Early Start. On Monday morning, June 29, they

FOUND IN BATCHELDER'S TRUNK. U. S. Government Bonds, \$15,000 Bank Book 5000 Gold Coin 2 handful

ALAMIDA, July 2.—That a man who spent his time on the streets seemingly penniless and who obtained his sustenance from vegetables and other things which he could pick up along the street, should suddenly turn out to be wealthy is to say the least, surprising. Yet it is found to be the case with B. Batchelder, a resident of Alamida. Batchelder is an elderly man who did not give the appearance of possessing much of this world's goods. He spent most of his time sitting on a bench in front of the Citizens' Bank in Alamida. His peculiar method of securing something to eat caused the belief that he was exceedingly poor, but it was found upon inquiry that he always paid his rent.

LET THERE BE MORE LIGHT ON FOURTEENTH STREET

EDITOR TRIBUNE Being interested in the improvement of Fourteenth street and desiring to see one of the best streets in Oakland, I want to call your attention to a few people and organizations who, in my opinion, are not doing their duty to the public. For over a year the property-owners have been trying to have electric lights placed on Fourteenth street from Castro to Franklin. Over 90 per cent of the people have willingly signed to have the light placed on the street. Just three property holders stand in the way of this most important improvement. The Young Men's Christian Association owns 150 feet at the corner of Fourteenth and Jefferson streets. Their rate of light improvement would be \$148.50. The First Methodist Church, streets owns 100 feet on Fourteenth street, for which they refused \$250,000. Their share of the improvement would be \$99. The church does not pay any taxes on its property. J. C. Westphal owns twenty-five feet on Fourteenth street between Broadway and Washington and twenty-five feet between Franklin and Broadway. All it would cost him would be \$12 for the improvement. Surely these two organizations and Mr. Westphal will show enough public spirit to sign to have Fourteenth street properly lighted when people in the street are already showing enough interest in the improvement and their small share toward this much needed improvement. JOHN S. WILLIAMS, Property Owner. Oakland, July 2, 1908.

IN PRESENCE OF HIS WIFE

She Was Awakened by the Pistol Shot

Prominent in Oakland Business Circles for 20 Years—No Reason Assigned for His Act.

BERKELEY, July 2.—The family of Ernest J. Osgood of 3306 College avenue was alarmed this morning at 5 o'clock by a pistol shot and rushed into his room to find him lying on the floor with a revolver clutched in his hand. His wife was standing over his dead body. No reason is known for the act, and it is believed to have been the result of temporary insanity. saw him fall.

Mrs. Osgood states that she was awakened by the shot and saw her husband fall. Osgood is well known in Oakland and Berkeley as the head of the firm of Osgood & Son, coal merchant, of 1509 Telegraph avenue. He has been prominent in the Oakland business world for the past twenty years.

Prostrated by Shock Dr. Schaefer was summoned immediately but life was extinct before he arrived. Mrs. Osgood is prostrated from the shock. She says that she can assign no reason for the act, as his business affairs were in good condition and his home life happy. He has not shown signs of despondency of late and the tragedy came as a dreadful shock to the family. Was Ill for Weeks. It is believed that a spell of ill health may be partly responsible. He has not been well for about three weeks, but was able to attend to his affairs. He leaves a widow and three sons, Byron, Clifford and Howard Osgood. He was a Mason and connected with other fraternal organizations. Arrangements have not yet been made for the funeral.

Found by Son. The tragedy this morning occurred actually without warning. Osgood must have arisen from his bed before 5 o'clock and committed suicide almost immediately upon leaving his bed. When Byron Osgood, his son, entered the room he

BORDER CITY PLEASANTON TO HONOR NAINTAINES GUARD

Engagements Reported and Affairs on the Mexican Line Are Still in Unsatisfactory Condition.

EL PASO, July 2.—Nothing has occurred along the Mexican border today to disturb peace and quiet. Juarez soldiers and officials again guarded the city strongly last night, however, expecting an attack. Mayor Mateus sat all night in his office with a rifle on his lap ready to lead men to repel invaders, but no disturbance occurred.

A persistent report is circulating in Juarez that troops had an engagement with revolutionists near Casa Grande yesterday morning, but it is unconfirmed. No train from there will arrive until tonight and the government has charge of the wires.

WASHINGTON, July 2.—Word has been received at the Mexican Embassy that Ambassador Creel will arrive from Mexico next week. The State Department officials believe that by the time the Ambassador reaches here there will be nothing more than an echo of a condition which for a time appeared to be a cloud on Mexico's horizon. Reports from the American officers charged with the enforcement of the neutrality laws show they have acted with promptness and zeal. Troops were sent to Del Rio largely for the moral effect their presence would have on alleged violators of the law, while the fact that none have been reported sent elsewhere by General Meyer is an indication in the official mind that they were not actually needed.

Danger Is Exaggerated.

DALLAS, Texas, July 2.—That the outbreak in Mexico is not a revolution at all and that the reports of uprisings there are greatly exaggerated is the statement of J. C. Corwin, a prominent mining man of Cuernavaca, Mex., who is now in Dallas. Mr. Corwin has extensive interests in Mexico and since the first rumors of the strike beyond the Rio Grande he has been in communication by wire with his representatives in Mexico. "I am able to state," said Mr. Corwin last night, "that this so-called revolution is nothing more or less than a revolt on the part of organized bands of robbers and desperados who are keeping up their crookedness under the guise of politics and are pretending to be leaders of a patriotic movement."

PRETTY HOME WEDDING IS SET FOR THIS EVENING Ceremony Held at Residence of Bride

MISS NETTIE ANTON.
—Belle-Oudry Photo.

Miss Nettie Anton, daughter of Mrs. M. Anton, and Floyd Busby, who were married this evening at the home of the bride's mother, 325 Oak street, it will be a very quiet home affair, as only the relatives of the young couple will witness the ceremony.

The bride will be attended by her sister, Miss Bessie Anton, and the brother of the bridegroom, Corrie Busby, will act as best man.

Tasteful Decorations.
The house is being prettily decorated with flowers and greens, and the bride will be dressed in a dainty white dress and flowers. After the wedding ceremony, which will be read by the Rev. Kennedy of the Methodist Episcopal Church, an informal reception will be held.

Honeymoon Trip.
At the close of the reception the young couple will leave on their honeymoon,

MRS. L. DE VINE, Goddess of Liberty.

MISS ELSIE CORCORAN,
Eureka on Native Daughters' Float.

PLEASANTON, July 2.—Patriotism and Pleasanton are, at this season of the year synonymous for the reason that, in the past, there have been in this thriving little town some of the most enthusiastic and successful celebrations of the Fourth of July which have ever been held in the county of Alameda.

For a long time there has been an

alteration of formal celebration of the great national holiday between this place and the adjoining town of Livermore.

This was the result of a mutual understanding between the leading citizens of both places and, as a consequence, when one town desired to hold the celebration, the other town stood in the background and aided the other in every way possible in making the undertaking a success.

The last formal observance of the day was held at Livermore and, in it, Pleasanton took part in a manner so demonstrative that the display made was one of the features which created a lasting impression. This time Livermore comes to Pleasanton and there is no doubt that the part which she will take in the demonstration will be a fitting evidence of appreciation of the distinctiveness which this place has displayed in the neighboring town.

Begins Early.
The celebration in this city will begin at an early hour and will continue until everybody has been satisfied that there has been sufficient of patriotism displayed and then the people will retire to their homes satisfied with the showing the place will have made for the purpose of demonstrating how she stands among the patriotic communities of the State.

Elaborate Parade.
The first formal proceeding of the day will be the parade which will take place at 11 o'clock. In this, there will be four brass bands, namely the Oakland U. P. E. C. band, with 46 pieces; the Centerville, Hayward and Pleasanton bands. There will also be a company of National Guard from Livermore, fire companies from this city and Livermore, a number of fraternal organizations, twenty-five elegantly decorated floats, in representing patriotic ideas, as well as showing up the marvelous resources of this part of the State.

Ladies in Costume.
A number of ladies will take part in the procession, appearing on the floats in various characters and in appropriate costumes. Among the ladies who are to appear in this manner are Miss Elsie Corcoran, who will impersonate Eureka, the character which has become so identified with the Golden State by reason of her prominence upon the shield of California; and Mrs. L. De Vine, who will assume the character of the Goddess of Liberty.

There will be a department for automobiles and bicycles in which there will be a number of vehicles which will be decorated in the prevailing colors of the day.

Free Barbecue.
At 2 o'clock there will be a free barbecue to which all the strangers, as well as those resident in this section, will be welcome. There is no part of the State in which the art of cooking beef in the manner which prevailed before the original settlers were displaced of their holdings in the State is better understood than it is in this section. There will be beef in plenty and it will be done to a turn and there is no doubt that it will be of the most appetizing character.

Literary Exercises.
The literary exercises will take place at 2 o'clock in the afternoon and at these Charles A. Gale of this city will preside. The orator of the day will be District Attorney Everett J. Brown of Oakland, who is one of the most eloquent speakers in the State. He is patriotic to the core and there is no doubt but that what he will have to say will be worth listening to. Miss Elsie Corcoran will be reader. Lee Wells will be musical.

Athletic Events.
There will be athletic features which will be for people who are partial to displays of that kind and, among the events already decided upon, are a baseball match between the Pleasanton and the Maxwells, the latter of Oakland; and another between the Livermore and The Tribunes, the latter also of Oakland. The former of these games will take place at 8 o'clock in the morning and the other one will be played at 2 o'clock in the afternoon.

Bicycle Meet.
Another attraction in the open will be a meet under the auspices of the California Bicycle Racing Association, in

SECRECY IS ORDER OF NAVY

No Information to Emanate From Workmen Engaged in the Construction of New Battleships.

NEW YORK, July 2.—In an order which is one of the most sweeping ever issued at the New York navy yard, all officers and men employed in the construction of the new 20,000-ton battleship whose keel will be laid within a few weeks, are forbidden to give out any information whatsoever to the newspapers or to the public. So strict is the wording of the orders that the officers in charge of the department of construction and repair, to whom it is particularly addressed, will not even give the name of the author.

Rear-Admiral Caspar F. Goodrich, commandant of the yard, is in Washington, and it is believed that the order had its origin there. One officer did venture the information that the contents of the document would probably be made public within a few days.

NEGRO CLEARED OF MAIL ROBBERY

Chicago Postoffice Inspector Fails to Identify Man Held on Suspicion.

MONROE, Mich., July 2.—Postoffice Inspector Stuart of Chicago arrived here this morning and after inspecting the negro taken into custody here Tuesday evening on suspicion of being Charles Savage, alias Stevenson, wanted for alleged connection with the \$50,000 registered mail robbery at Kansas City, declared that he was not Savage. There is a resemblance, but Davis, who once arrested Savage, unhesitatingly declared that the local prisoner is not the man-wanted mail robber. The negro says that his name is E. W. Thomas, and that he is a solicitor of funds for a negro home at Macon, Ga.

Goes to Korea as Resident-General

TOKIO, July 2.—Count Sone has left here to relieve Prince Ito, who is returning to Tokyo, and will reach here on July 15. Prince Ito probably will remain in Japan, but will not relax his control of Korea, though Viscount Sone will act as resident general.

200 Passengers Short of Food

HONOLULU, July 2.—The German steamship, Michael Jenson, ran short of provisions while returning from Salina Cruz with 200 Chinese, who were refused a landing there on account of the presence of trachoma. The Jenson sailed from Salina Cruz on May 8 for Shimonekei.

Paper Forced to Suspend by Unions

AUSTIN, Tex., July 2.—The organ of the Mexican junta in Austin has been forced to suspend because of refusal of union printers to handle the copy and union pressure to print the paper.

The editor, Thomas Labranda, is most optimistic regarding the present uprising in Mexico.

On Pleasanton Course.

The racing will take place on the Pleasanton race track, which is one of the finest courses for this purpose in the world. The races will be as follows: A fifteen-mile relay, a one-mile novice race, a five-mile handicap, a ten-mile motorcycle race and a motor-cycle pursuit, which will be unlimited.

At 4 o'clock, there will be an excellent series of foot races.

The Horribles.

In the afternoon at 5 o'clock there will be a parade of "Horribles" and the management declares that this will be the most elaborate of any display of this kind which has ever been held in this part of the state.

There will be dancing, afternoon and evening, the grand march at night commencing at 9 p. m.

Excursion.

An excursion train will be run from this city to Pleasanton. It will leave the corner of First street and Broadway at 8:40 a. m., passing San Leandro at 9:20, Hayward at 9:30 and Niles at 9:50 o'clock. The rates for the round trip are as follows: Oakland, \$1.40; Hayward, 90 cents; San Leandro, \$1.10; Niles, 80 cents. The train will return late in the evening.

MAKING CHANGES IN SCHOOL COURSES

Superintendent of County Schools George W. Frick is busily engaged in preparing new rules, regulations and school work for the ensuing school year which begins in the fall. At the end of the week a circular containing the changes in school courses which are made annually will be issued from the superintendent's office.

COMES FROM FINLAND TO MARRY

Trusting Girl Travels Alone From Native Land to Wed a Countryman in This City.

MRS. FRANZ RAMSTEDT.

Crossing the continent to marry the man of her choice, Miss Johanna T. Ramstedt of Finland and Franz Ramstedt of this city were married at the Finnish and Norwegian Sailors' Mission last night by the Rev. Mr. A. Ahlman. The witnesses were Mrs. A. Ahlman and the sexton of the Finnish and Norwegian Sailors' Mission. The ceremony was read in Finnish.

Finnish Costume.

The bride was dressed in a plain, tight-fitting dress imported from Finland. Her hair-gear was also that which is worn in the old country at popular wedding ceremonies. The hair was fastened with combs and brought together in a knot on the top of her head. The entire make-up was typical of the Finnish women.

The bride arrived in Oakland last week.

Came Here Alone.

The only friend she had was the bridegroom, who, after years of correspondence, induced her to come to California. She is without friends or relatives in this state and cannot speak a word of English. She cannot even speak in monosyllables, nor does she know what the nod of the head means.

Bride Is Shy.
Mrs. Ramstedt is exceedingly shy and is as modest as a young girl. She is thirty-two years of age and was born and educated in Finland. She is a tall, slender blonde and considered a belle in her own country, where she is extremely prominent in Finnish society.

Husband Is a Finn.
Franz Ramstedt is also a native of Finland and is now in the employ of the Atlas Gas Engine Company in East Oakland.

Mr. and Mrs. Ramstedt will reside at 1105 Twelfth avenue, East Oakland.

SCHOOL BONDS PAYMENT CONTINUES AT RAPID RATE

City Auditor Wires Out Another \$20,000

City Auditor Cross this morning sent \$22,500 to the National Park Bank of New York in payment of school bonds, \$20,000, and semi-annual interest amounting to \$2,500.

Of the bond issue on which this payment was made there now remains but \$80,000 to be paid. These bonds were issued July 15, 1892, to the amount of \$400,000, payable in 20 years with interest at 5 per cent.

The money was required at the time of the issue for a new high school building, \$165,000; for the grammar school building in the Third ward, \$75,000; for the grammar school in the Seventh ward, \$50,000; for the primary school building in the Sixth ward, \$35,000; for enlarging the Grant school building, \$25,000; for enlarging the Cole and Tompkins school buildings, \$20,000; for enlarging the Lincoln school building, \$10,000.

E. V. D. Paul tells in the July Sunset Magazine what enterprising and brave are doing in the canyons and forest clearings of Mendocino county in the way of raising fruit. An article well worth reading.

ment. The cause of these corruptions seems in doubt. Whether it is the result of the San Francisco system, where millions of dollars in public money were consumed, whether it is an aftereffect of the present financial panic (caused by the dishonesty of many of the big financial agencies of the nation) or whether it is the result of agitation and prosecution of political policies in recent days, one fact is patent above all else and that is the American people have not lost faith in the Republican party and its leader, "Hoover or Roosevelt." The sentiment is the marked contrast to a movement that exploded in 1904, when President Cleveland and the Democrats lost power in 1908.

In any sense here institutional in the present conditions the people are not going to be deceived.

His Daughter From California Reaches His Bedside Today.

Compliments Roosevelt.

"Roosevelt is a type of man who is a dominant factor in the history of his country in England was tottering to its fall through the influence of the French people to become a nation of slaves. Napoleon was able to accomplish this because of his personal qualities and high ideals personified by him. He was about to supplant the people as the governing power, the influence of the French people was awakened."

(Continued from page 1.)

people of the nation have learned to stamp out evil with unrelenting force and this is largely due to the example of Roosevelt and the result of Republican politics.

Just Exactly Right

I have used Dr. King's New Life Pills for several years and find them exactly right. Says Mr. A. A. F. of Harrisville, N. Y.: "New Life Pills relieve without the least discomfort or remedy for constipation, biliousness, indigestion, etc." Osgood Bros' drug store.

Denunciation of the Courts.

It is the steady purpose of that coalition of envy, spite and politics, organized and acting under the direction of Rudolph Spreckels, to put the courts and all who refuse to indorse the high-handed measures adopted by it in the category of apologists for crime and defenders of criminals.

The graft prosecutors, starting with a clear case and a clear duty, so muddled the situation by granting immunity to a horde of acknowledged criminals in order to convict others who were accused and who suffered the additional misfortune of being under the Spreckels personal ban, that now they find it impossible to convict anybody. By their cutting crosslots to accomplish their ends they have incurred reversals in the higher courts, upon which they seek to make political capital.

They assume that the masses of citizens who want crime punished and decent government to prevail will accept their representation that all who do not join them in the outcry, all who do not approve their high-handed and personal methods, are actuated by a desire to get the grafters off from all punishment. And it is very probable they pursue courses of legal action they know will be reversed just to get the courts "in a hole," and pose as purists who are balked by venal jurists higher up.

It has been many times stated, and may be stated again, though it should not be necessary, that decent citizens, which must include the great majority of all, desire nothing else than the conviction of all grafters. They were with the prosecutors at the outset. But when self-confessed hoodlars in large numbers were granted immunity, with the assurance that they would be permitted to retain their swag, that their testimony might be used to destroy others who, in addition to being accused, suffered the personal ill-will of the self-appointed prosecutors; and when the whole movement was converted into a squalid political enterprise, then people began to lose interest and to doubt the sincerity of it all.

There is no division of opinion as to the desirability of convicting all grafters. Punishing Ruel is one thing, but worrying him because he is in the legal detention of those angered at him for not coming up to their expectations in a disgraceful immunity bargain, is another.

The judge before whom Ruel was tried and who has always manifested the most violent bias, having refused to consider his application for bail, the Appellate Court has now taken the matter from that judge's jurisdiction and placed it in another. And, just as when the Appellate and Supreme courts ruled against it in former cases, all hands of the prosecution now turn and denounce this decision as a calculated defeat of justice.

The conviction of all the grafters is desirable, and necessary and should have been realized long ere this; but the integrity of the courts is much more desirable. The attacks made upon them are wholly in line with all the tactics of the forces whence they emanate; but fair-minded citizens will not be misled by the clamor that the judges of the highest courts of California unanimously misinterpret the law that notorious rogues may go unwhipped.

Sentence of a Bank Wrecker.

W. J. Barnett, weird financier of San Francisco, has been sentenced to serve ten years in the penitentiary. The crime which served as a basis for this sentence was the embezzlement of securities of a rich estate, amounting to something over one hundred thousand dollars. There is no dissent anywhere to the proposition that Barnett deserves what he got.

But the crime of which he was convicted is only one of a vast network, involving the embezzlement and stealing of some six millions of dollars from the California Safe Deposit and Trust Company, and affecting ten or twelve thousand interests and persons. Many of these were poor people, or estates upon whose maintenance widows, orphans and others who were helpless depended.

For this gigantic financial smash the man who was sentenced yesterday was conjointly blameable with another man. This other man is one J. Dalzell Brown. They hunted in pairs. It has not been established which possessed the most criminal cunning; but Brown was the president of the institution during most of the time when the enormous sum was being stolen.

Brown also has been tried, or, at least, he has been permitted to plead guilty, with the understanding that his sentence would be light. It was light. Some mysterious influence made it a year and a half. But he was really more guilty than the hapless man who was sent up yesterday. Besides getting off with a year and a half, all other charges against him were dismissed.

Now, how did this happen? Who interested themselves to get off with a nominal punishment this unmitigated criminal? We can only judge by remembering who his friends and intimates were before he fell aoul of the criminal law and was put in a felon's cell. Who was his chum when, as a lofty purist, he contributed \$5000 to the graft prosecutor's fund? Who was his clubmate, and on whose account did he threaten to discharge an employe for not favoring as a member of a club committee, a certain application for membership? Who is in full control of the District Attorney's office of San Francisco, which must have acquiesced in the arrangement whereby this heinous malefactor was permitted to plead guilty and be let off with nominal punishment?

What personage, finding himself with undue control of the legal machinery of San Francisco is playing favorites all along the line? These questions might be answered with the distinct furtherance of justice and decency.

THE ENTRIES IN THE DENVER HORSE SHOW

—CHICAGO TRIBUNE.

The Bubbling at Denver.

The pot at Denver doesn't bubble as furiously as some may have expected it would. There is no doubt that Mr. Bryan has the control of things. He will be nominated beyond any question. The dispatches state that Judge Gray's managers have established headquarters in the convention city; but all the papers which publish this also publish a definite statement from the jurist to the effect that just as he has declared he would not be a candidate for the first place on the ticket, so he now declines positively to stand for the second. That ought to eliminate Gray from the calculation.

The managers for Johnson of Minnesota declare that under no circumstances will the people of his State "permit him to be shelved as Vice-President," and thus handicap him for the main chance in 1912. They declare that in him they have a comer, who shows good places the first time out, but who, when seasoned, will be a world-beater. There are a good many amiable onlookers who believe that Johnson is in the squab category, and will never hereafter look as big in connection with the White House as he does now. He has the advantage of being unknown now, and that will not be the case four years hence.

Herman Ridder, editor of the New York Staats Zeitung, is reported to be on his way, with full knowledge that he is headed for Lincoln, Nebraska. He says he has the intent to stop off and tell Bryan that he is in the way; that he must step aside; that if he persists in becoming the candidate, "all the Democracy can look ahead to its certain defeat." If Mr. Ridder supposes such a representation will remove Bryan from the center of the scene, he is a veritable babe in the woods. Mr. Bryan has not been studiously working up the situation for four years and more to abate himself at the psychological and ecstatic moment because somebody has contracted cold feet.

A new character on the scene is Clark Howell of Georgia. He is the editor of the Constitution, the leading paper of his State and the region round about. He was the opponent of Hoke Smith two years ago when that baiter of railroads, rich men and liquor went into the governorship with so much outward eclat. It is stated that Howell may prove the acceptable candidate in the second place.

A young woman was in company with a university graduate, and naturally the talk ran upon books. By and by there was a lull in the conversation broken presently by the young woman, who said: "What do you think of Fielding, Mr. Smith?"

"Oh," was the answer, "Fielding is important, of course; but it isn't worth much unless you have good bowling and bathing." He had just returned from a continental trip, and was telling his adventures. "And above all," he said, "I actually had the distinguished honor of playing whist with a king." The man in the overcoat had listened in silence up to this point, and now his lip curled scornfully as he replied: "What's the matter; I once played with four kings."

Fifteen thousand millions of dollars worth of products were manufactured in the United States last year. Most of the profits from this vast sum went into the pockets of shareholders in the corporations that own the manufacturing. More than one-half of the wealth of the United States is being produced by these factories. Do you own shares in a manufacturing company? Do you draw semi-annual dividends, like hundreds of thousands of shareholders? There is no such thing, practically, as chance or speculation about this class of investments. The profits are sure, the dividends are sure, and the shareholder is one of the owners of the industry. We offer shares in going and growing enterprises of this character. SNOW WILL COOL OFF DEMOCRATS AT DENVER

Congested Moisture From Mountains to Moderate the Heat

DENVER, Colo., July 2.—For the first time in the history of National Conventions an attempt will be made in connection with the Democratic convention to be held here next week to moderate the temperature of the hall by the use of snow and preparations are under way for the experiment.

Although the date for the opening of the convention is almost a week removed Denver considers herself in readiness for that event, and while no one can estimate the number of strangers who may be attracted to the city, not a resident but will assure you that all will be well cared for.

Some concede that the hotel accommodations may fall short of the requirements but if such should prove to be the case the private citizens generally stand ready to throw open their houses for the accommodation of visitors.

Appreciate Denverites.
Without regard to political affiliation the people manifest the greatest appreciation of the compliment paid them

hotels but many other visitors will probably find it necessary to obtain accommodations in boarding houses and private residences. If the attendance should be as large as anticipated. They will, however, be looked after by the local committees, which guarantee that visitors shall be properly treated in all respects.

Convention Hall.
Probably the most marked evidence of preparation to be found is in the new convention hall. It is a magnificent structure which has been erected in the heart of the city at a cost of \$400,000. It is a permanent building but it will be christened by the convention and it is even now in readiness for the reception of delegates. So nicely was the work on the hall calculated that the building has just been completed. Indeed, if necessary, the big meeting could begin tomorrow.

Nothing remains now but to string a few strips of bunting across the band stand and put in place the large painting of Grover Cleveland, which is to adorn the end of the building facing the main auditorium and the far-reaching galleries are all in place and decorations already render the interior picturesque and attractive.

The Cleveland picture will be one of four only that will be given space in the enclosure. The policy is to place in the hall only the likenesses of departed Democrats but an exception is made in the case of George Washington, if he can be called an exception. Washington's portrait finds a place immediately over the seat of the chairman and is flanked on the right by the picture of Jackson and on the left by Jefferson.

Cleveland's portrait will face all of the others from the far end of the hall, distantly separated from them in space as

he was from the other originals in time. The proverbial Democratic rooster will give place to the eagle and there will be many "peepers" of that bird. They are already in place and all cluster about the platform of the presiding officer. They are in both flying and sitting attitudes and would look very life-like but for the decorations in the way of national colors and other devices which have been liberally bestowed upon them.

All told the hall is one of the most complete for its size in the country. Not only will it be very attractive to the eye, but no effort will be spared to make it agreeable to the feelings. Denver has been driven in point of weather this summer than usual and also warmer and a relief has been felt upon which it is believed will both moisten and cool the atmosphere.

Snow From Mountains.
This result is to be accomplished by introducing snow from the mountains in liberal quantities. The new Denver Railroad known as the Moffat Line crosses the Continental Divide fifty miles west of the city and runs through innumerable beds of perpetual snow, and this line has been contracted with to bring to the city large quantities of snow, which will be distributed through the hall in barrels. The confident expectation is that it will vastly cool and improve the atmosphere, and it is known that if it does not accomplish this result it will at least prove a novelty to the visitor from the States in which snow in the summer is unknown.

The hall will seat 12,000 people but that it may not be used for conventions alone may be appreciated from the remarks of one of the decorators who while sitting in a gallery seat resting for his lunch today remarked to one of his fellows: "But would not you like to see a prize fight down there in the pit?"

Every succeeding day emphasizes the fact that in many respects the approaching convention will be a duplicate of recent Republican convention at Chicago and two of the most pronounced features of similarity will be the contests for the vice-presidency and the injunction plank in the platform.

Gray a Favorite.
As was the case with Senator Doll, Judge Gray is the leading candidate for the first place on the ticket. Mr. Bryan is unequivocally for him and delegates from all sections express satisfaction at the mention of his name. Judge Gray should decline the contest of opinion is favorable to throwing the office to New York. As was the case at Chicago the ultimatum has already been forth that if New York wants the coronation she must show her good faith by getting together and agreeing upon a candidate as the Republicans did upon Mr. Sherman.

Again there is a division and in addition to the names of Stanford and Harrison, the name of Charles A. Tamm is now frequently mentioned and his friends are making strenuous claim in his behalf.

The New York delegation will not arrive until a few days before the opening of the convention and its candidacy for agreement may not be unfolded until the scene of activities is reached and the situation fully explained to its members.

Injunction Fight.
Unless there is a decidedly greater tendency towards compromise than is now manifested, the real fight will be over the injunction plank, but the leaders declare that before the committee on platform is appointed a substantial agreement will have been reached and that the committee will be relieved of the necessity of a prolonged sitting. In Chicago the fight was against the insertion of any injunction plank at all here all admit the necessity of some declaration, but many oppose the pronouncement for previous notice in injunction proceedings. There has been much communication with Mr. Bryan on this point but apparently his attitude is not clearly understood, and probably it will not be until his draft of the plank which he is understood to be preparing is received. It is known however, that he would use stronger language than is employed in the Republican platform. That he is willing to go as far as the Federation of Labor demands none are willing to say, but his closest friends say that he does not consider it necessary to make such a sweeping declaration. They say that Mr. Bryan will himself suggest what will be a concession to the conservatives, and they predict that in the end his draft will be accepted.

It Can't Be Beat.
The best of all teachers is experience. C. M. Harden of Silver City, North Carolina, says I find Electric Bitters does all that is claimed for it. For Stomach, Liver and Kidney troubles it can't be beat. I have tried it and find it most excellent medicine. Mr. Harden is right. It is the best of all medicines for weakness, liver back, and all run down conditions. Best, too, for children and invalids. Sold under guarantee at "Good Hope" drug store, 50c.

ROOSEVELT TALKS TO KELLOGG

Proposed National Committee Chairman Said to Have Given Reasons For Not Accepting Position.

NEW YORK, July 2. — Frank B. Kellogg, committeeman from Minnesota, is still the factor of prime interest in the situation over the chairmanship of the Republican national committee. No formal offer of the chairmanship has been made to Kellogg, but it is a general belief in political circles here that such an offer would be made if Kellogg were to indicate that he was in a position to accept. Kellogg and Committee Chairman Ward, of this State, spent three hours yesterday in close conference with President Roosevelt, during which Kellogg's objections to taking the place, it is believed, were set forth.

Taft Off for South.
WASHINGTON, July 2. — Judge William H. Taft is making all arrangements to leave Washington for Hot Springs, Va., tomorrow afternoon at 4 o'clock. Meantime he desires to dispose of a great accumulation of correspondence. Since he returned from his trip to Japan last Saturday night he really has had little time to devote to this on account of the heavy work at the War Department, but he will make a distinct impression upon it today and tomorrow.

Cannon in Washington.
Speaker Cannon, who arrived in Washington last night, said today that he came to attend to some extensive business, but expected to call on Taft during the day. His prompt and cordial promise of earnest support, made immediately after the nomination, was deeply appreciated by Taft, and harmonious working agreement between the two eminent Republican leaders is assured.

It was expected that Taft and Frank H. Hitchcock might have a conference today, but no engagement for it had been made, and it may go over until tomorrow.

Taft has retained a desk and some chairs in the library, as a substitute for his dismantled K street residence, and there he will work until his departure.

CRIPPLE RESCUES TWO SMALL BOYS

Alexander Patterson and Augustus Monahan Saved From Drowning in Pond.
With stumps for legs, a stump for his right arm, and his left hand minus several fingers, "Joe" Gilligan, 13 years old, swam to the rescue of two boys in the gravel pit pond, Morris Plains, N. J., and saved their lives.

Alexander Patterson and Augustus Monahan, 12 years old each, were in an old boat on the little pond near the Lackawanna Railroad tracks at Morris Plains. The pond is about ten feet deep at its greatest depth and it was at this point the boys upset the boat while playing. Patterson could not swim and he clasped Monahan around the neck. Before he was dragged under Monahan cried loudly for help.

Gilligan was sitting with other boys under the shade of a tree, out of sight of the pond. He had been showing his friends the athletic limbs his parents had purchased to ease his afflictions. He had unstrapped the limbs when he heard the cry for help. Not stopping to put them on, for in the years he had been without them he had learned to run on his stumps of legs and his one good arm, Gilligan hustled to the pond, crying:

"Hold fast, I'm coming!"
Plunging in, he swam to the spot where the boys were struggling, grasped the two lads and pushed them apart. He then swam with one hand and pushed Patterson ashore.

Returning, Gilligan went after Monahan, who was sinking. The cripple also pushed him ashore safely, and the two boys, grateful to their rescuer, carried him to his home, where he received divinity.

Gilligan, ten years ago, was run over by a freight car in Brooklyn. He lost one leg above the knee and the other below the knee. His right arm was taken off at the elbow and three fingers from his left hand. He learned to swim a few years ago and was joined with the boys of the neighborhood in their games, even playing baseball after a fashion of his own.

LIEN OF \$345 FILED AGAINST ROCKEFELLER

Mechanics Want Pay for Work on New Laundry.

NEW YORK, July 2. — A lien of \$345 was filed against John D. Rockefeller in the Westchester County Clerk's office by the White Plains Hardware Company. The lien is for work done on a new laundry at Mr. Rockefeller's home at Pocantico Hills. This is the second lien to be filed. The first lien was for \$200, and was filed by a New York firm. It is said that the liens were taken because the general contractor employed by Mr. Rockefeller did not pay the subcontractors. Mr. Rockefeller has taken the stand that he is not responsible.

PRINCE SAYS KOREA WILL DRAW CAPITAL
SEOUL, July 2. — Prince In has given an audience to Messrs. Coulburn and Hostwick, who recently were granted a mining concession. They were introduced by American Consul Sanmons. The subject of mining in Korea was amply discussed and the opinion was expressed that the new regulations relative to the industry would attract western capital.

REPUBLICANS IN THE FIRST WARD

Congressman Knowland and C. M. Threlkeld to Meet Them Tomorrow Night.

The Republicans of the First Ward of this city will have an enthusiastic gathering tomorrow evening at which there will be a large number of the members of the party in that section present. The club in question is one of the most resolute in the advocacy of Taft and Sherman at the present time, and as this is the first gathering since the nomination of the candidates referred to, the members are leaving nothing undone to make the opening of the campaign in that section a success.

Among the speakers will be Congressman J. R. Knowland and C. M. Threlkeld. There will be a great deal of interest centered in the efforts of those gentlemen because both of them are Republicans of the most pronounced character. Knowland is a personal acquaintance of both the candidates on the National ticket.

Those gentlemen will unquestionably be of a most instructive character. The meeting will be held in Rose hall, at Sixtieth and Adeline streets.

Board of Directors Has Not Announced Meeting Place of Next Convention.

CLEVELAND, July 2.—After electing officers for the coming year the members of the National Educational Association today rested from their labors. Department meetings continued but there was no "general session." The day was given over to sight seeing and such other entertainment as was provided by the hosts.

Denver has a pre-eminent position for the next convention. The chosen city, which will announce its determination later, Atlantic City and Chicago are the rival cities.

From an educational standpoint this year's convention has been an unusual success, but the attendance has dropped much below that which was anticipated. The council of the association met today at 9:30 o'clock.

CONFERENCE TO DISCUSS TARIFF

Congressman Needham Active in Movement to Secure Harmony for Tariff Revision.

MODESTO, July 2.—Congressman Needham will attend an informal conference of various commercial and producers' organizations of the State at the Chamber of Commerce rooms, San Francisco, July 7, called by Governor Gillett.

Needham hopes to induce the various bodies to agree upon a harmonious plan of procedure regarding tariff revision, so that cases in behalf of California industries may be presented in a proper manner before the war and means committee, which began its hearings in Washington, November 10th.

Needham, a member of this committee, was extremely anxious to complete his work in presenting the cases. He states that the conference called by the California Promotion Committee July 16 is entirely without consultation of other commercial organizations of the State, creating a storm of discussion and the assertion that the promotion committee is endeavoring to forestall action by all organizations. The convention took place in San Francisco, July 7, called by Governor Gillett.

SACRAMENTO, July 2.—The State of California entered upon a new fiscal year yesterday. According to the books of Controller Nye the expenditures of the State government during the last twelve months exceed those of the preceding fiscal year by \$1,334,792.50, and are larger than the net expenditures of any preceding year. It cost just \$15,489,750.28 to keep California going during the twelve months just past.

During the fiscal year the inheritance tax produced in round numbers \$809,000; the insurance tax, \$248,000; the corporation license tax, \$663,000; the sale of hunting licenses, \$117,000; the fees collected in the office of the Secretary of State, \$204,000; motor vehicle licenses, \$17,000. The sales of school books amounted to \$180,000, and the receipts of the San Francisco Harbor Commission were \$1,182,000. Last year's increase of the assessment roll for the year before was nearly \$285,000,000.

California has a population of 1,878,156. This is according to an estimate by John Wood Jr., statistician in the office of the State Superintendent of Public Instruction, based on the school census returns, which are now in. This shows an increase of 88,336 over the estimate a year ago.

The records show that here are 457,093 school children between the ages of 5 and 17, an increase of 3 years in the net gain of 21,344 over the total for 1907.

The counties that made the greatest gains are as follows: San Francisco, 10,228; Los Angeles, 2587; Fresno, 1393; Santa Barbara, 1200; and San Diego, 1100.

San Diego county shows the greatest loss, with a decrease of 216. Monterey shows a loss of 162.

The school census shows the following population in the counties surrounding the bay:

Alameda, 49,407; Contra Costa, 9292; Marin, 1356; Monterey, 4880; San Francisco, 57,000; and San Mateo, 12,184.

To get the total population of the State, Statistician Wood used the multiple 4. He used a different multiple for each county, and he said, is about the average for the State.

"I used Cascarets and feel like a new man. I have been a sufferer from indigestion and sour stomach for the last two years. I have been taking medicine and other drugs but with no relief. Only for a short time. I will recommend Cascarets to everyone who has indigestion and sour stomach. I want stomach and to keep the bowels in good condition. They are very nice to use."

FIGHTER'S WELL REMEMBER GOLDFIELD'S CRUEL BATTLE

Men in Condition Lay Aside Training and Await the Clang of the Gong--Memory of Famous Battle May Have Its Effect.

BY EDDIE SMITH.

LIKE a well satisfied artist, laying aside his brushes and oils after beautifying a piece of canvas, Joe Gans and his trainer, Nelson, lay aside their tools with which they have conditioned themselves for the contest of Saturday afternoon to win which they would put with most anything they possess and for which they have both left their best efforts in perfecting their condition. Tomorrow will be a day of rest, with the fighters, the only thing that may be done is a little road work of saddle and distance to loosen up the muscles and to get the weight and body into the best of condition. In fact the work of tomorrow will be like the artist's work of today, to lay aside the tools and to wait for the day when the gong will ring and the battle will be on. The fact that the fighters are in such good condition is a tribute to the skill of the trainers and to the ability of the fighters. The fact that the fighters are in such good condition is a tribute to the skill of the trainers and to the ability of the fighters.

The fact that the fighters are in such good condition is a tribute to the skill of the trainers and to the ability of the fighters. The fact that the fighters are in such good condition is a tribute to the skill of the trainers and to the ability of the fighters.

That Old Foul Punch. It has been suggested that one of the fighters in the Nevada fight once said that it was true that Nelson was sent from his corner, but it was not by putting it over while the referee was not close up to the men. At this time the fight was a tight one. The fact that the fighters are in such good condition is a tribute to the skill of the trainers and to the ability of the fighters.

There is an old saying and I believe it to be a true one, that an untold tale often enough will become so strongly impressed on one's mind that after a time will be believed to be true. Nelson has told the story of the foul punch so often and has had the able assistance of Billy Nolan some of the time, about the way in which he was handled and how

JOE GANS, THE MAN OF PUGILISTIC DESTINY, WHO IS SURE THAT HE WILL CONQUER THE GREAT DANE, BATTLING NELSON, ON THE FOURTH OF JULY.

Lightweights Are Down to the Mark

LOS ANGELES, July 2.—Both Packer and McFarland and Freddie Walsh, who are fighting at Jeffries' Vernon arena on the fourth of July are in fine shape and down to the required weight. So far as condition is concerned there is little to choose between these men. For a time there was some doubt as to McFarland's ability to make the 133 pounds required, but yesterday the Chicago fighter displayed all these doubts when he weighed in at one-half a pound over the required weight. Walsh's weight is a fraction more than 133 pounds. Betting favors McFarland at 10 to 5.

THE MIDSUMMER FICTION NUMBER. The July Sunbeam contains some nice fiction. Among the contributions are "The Summer Opposite" by Talley Mairland, "Careless" by Billie C. Hill, and "Win the Best of Clay" by Alfred Daydon Runyon.

After seeing the very flower of the athletes of the Middle West in training, the Stanford coach is more than ever satisfied with the showing of his men. He does not hesitate to say that the athletes of either Stanford or California University could defeat the Middle West in a dual meet.

DREADFUL TOE HOLDS OF FRANK GOTCH PROVE TOO MUCH FOR SEATTLE DOCTOR

SEATTLE, Wash., July 2.—Frank Gotch, of Iowa, conqueror of Georges Hackenschmidt and the champion catch-as-catch-can wrestler of the world, maintained his right to the title here last night when he twice defeated Dr. Rolter, the star wrestler of Seattle and the champion of the Northwest. Gotch won the bout in two consecutive falls. The town man won his bouts in fifteen and twenty-five minutes. The non-entered the ring each weighing close to the two hundred

pound mark. When the Goltath sparred off for an opening they wrestled little time and went at each other like a pair of Horford bulls. Gotch was on the alert and he worked the deadly toe hold at least five or six times. Rolter worked away from those deadly grips, but they finally wore on him, and finally Gotch downed him with a catch and half Nelson. Rolter showed improvement in the second

and bout, but Gotch went after him like a terrier and rushed from hold to hold in great rapidity. Gotch was the master of the situation in this bout, but Rolter surprised the fans by breaking a half Nelson and croch when he was apparently lost. He was finally picked up and dumped on his back. There was some question as to the legitimacy of the last fall, but Gotch and Rolter at his mercy little protest was raised.

CHIT-CHAT OF THE GAME

BY T. P. MAGILLIGAN.

Secretary McFarlin of the Oakland Baseball club announced this morning that the Athletics baseball team has signed up W. H. Miller, who until recently was a Lynn, Massachusetts, player. Miller is understood to have had some trouble with the Lynn management and was turned over to Waterbury. The Oakland management had a claim on Shinoel, a catcher for that team and they traded their claim on Shinoel for the infielder.

Miller is said to be a very fast infielder. He is more than six feet tall, a whopping good batsman and is said to cover lots of ground. Before the Oakland Club made the deal they wired Biggie for information on Miller and the latter recommended the Eastern, Pennsylvania, man highly.

Miller will report as soon as an overland can carry him this way. If he makes good he is likely to be played at second, while there is a chance that Haley will be shifted to the outfield.

Heine Helmutz continues to whack the ball at a great rate. He hit low slapped out three hits at Los Angeles yesterday. Heine is playing a brand of baseball these days that points with no uncertainty at a major league future for the cool-headed right fielder.

The scouts who are looking for major league timber and who fail to consider this same Heine Helmutz as one of our best bets for major league company next season, and you can pin this in your cap.

With Young Jimmy Smith well and back in the fold, that Oakland team will be a pretty hard proposition for opposition nines. Smith is a pretty little ball player, one that can hit, run and field and as soon as he gets back to his old position, Oakland will likely begin to do a climbing stunt towards the top of the ladder and when they get there have a chance to remain in the upper circle.

Deinas, Blanche and Ellis each got a brace of "blows" at Los Angeles yesterday afternoon, (telling some).

Danzig and McHenry each smashed out two hits. The New England recruits look like a useful pair to McCredie.

Henderson had a good day with the willow yesterday and cracked out two hits.

Truck Sean got only one hit-up, but it was of such dimensions that it gave Oakland the game with Los Angeles yesterday. Truck is swinging back into his proper batting slot.

Cooney, Casey and Ryan were easy meat for Honey in the opener.

McCredie has a penchant for the tall boys. Marshall, Danzig, Groom and Kinsella are all six-footers and built like slats.

Kid Mohler's larup made Bessy hustle before he got it in the opener, but the black hand managed to grab it.

Hillbrand's larup in the opener was a pip or a rap. It shot between Ryan and Cooney as though it were propelled from a 12-inch gun.

To show the strength of his arm in the opener, Madden batted one to second and caught it (Hillbrand).

A moment later the Portland catcher pegged Zelder out at second about half a mile.

After sitting on the bench for a brief space, Bessy got back in the game yesterday. Madden batted one to second and caught it (Hillbrand).

First time up yesterday Nick Williams walked. Probably there are no more hits left in the Williams bat.

"You're in the air," yelled some fan after Marshall walked. Williams and McHenry in the second. There is no ground to doubt this intellectual fan when one considers the longitudinal proportions of Marshall.

Henderson took a walk in the second.

This boy Curtis is coming along nicely. He is hitting the ball hard, and swinging like a fiend.

Mohler made one of those plays that caused a fellow to hold his breath when he raced over second base in the third.

Knockouts End Sailor Fights

Because he was there with an unusual wallop, Phil Schlossberg, champion heavy-weight of Uncle Sam's navy, successfully defended his title against Mike Neely, challenger, at Billy Roche's arena in Colma last night. Schlossberg knocked Neely out in the first round of a battle that was scheduled to go ten rounds.

Neely looked like a better man when he entered the ring, and Schlossberg gave him no time to gain confidence. He sailed right in and made short work of Neely.

The first bout of the evening was a go between Pete Daniels of the Ohio and John Fredericks of the Illinois for the feather-weight championship. Fredericks stopped Daniels in the second round.

Young Meyers of the Ohio knocked out Fred Geron of the Illinois in the fourth round.

Ballot Breaks World's Record

SHEPHERD RAY, July 2.—Batted at the prohibitive odds of 5 to 1, the Kenton crack, captured the Advance Slakes yesterday afternoon in a common caliber. The race was at the mile and two and one-half furlongs and the horses went to the post. Ballot broke the best previous record for the course.

He covered the distance in 2:09.3. This is a full second better than the world's previous record.

Hopland Team Is After Games

HOPLAND, July 2.—The team of this city challenges any unknown team of the coast. This is the first challenge that the management of the local team has issued. The home team has won eight out of the ten games played. Here is the line-up of the Hopland team:

C. Alvarez, pitcher; C. Babcock, shortstop and pitcher; B. Leach, catcher; T. Buckman, first base; M. Leoley, second base; G. Babcock, third base; E. Daw, right field; C. Dooley, center field; B. Porington, left field; L. Redick, shortstop.

Army Wins Game From the Navy

SAN FRANCISCO, July 2.—There is great joy in army circles as a result of the victory of the champions of Uncle Sam's service over the Navy. The teams met at the Presidio yesterday and the Army was returned victorious by a score of 12 to 3. The batting in both sides was of the heavy order, and was thoroughly enjoyed by those who saw the battle. The army men scored in every inning but two and made fourteen hits, which, coupled with clever errors that the Navy made accounts for the victory of the Army.

'CAN'T LEAVE BOAT UNLESS HE WANTS TO,' IS HIS WAIL

Says He's Marooned on Bay Dredger

Dave J. Darling, who writes in a strikingly feminine hand, has complained to the chief of police of Joplin, Mo., that he is marooned on the dredger Carson—presumably somewhere in San Francisco bay—and cannot go ashore unless he wants to. The message Darling sends has advanced on its way to Joplin as far as the office of Chief of Police Wilson. Among Chief Wilson's mail this morning was a letter with this return card: "Rits, 351 B street, Oakland." Inside was a note of white paper which says, "This was found floating in bay in corked bottle."

The "this" referred to was a note of yellow paper on which was written, "Oakland, Cal., Jan. 20, 1908. Am marooned on Dredger Carson as cook. I can't go ashore unless I want to. Finder please notify chief of police of Joplin, Mo." signed "Dave J. Darling."

BRIDE FROM DENVER IS WON BY OAKLAND MAN

WED IN BOWER OF GREEN AND PINK

A very pretty home wedding was that of Miss Mabel J. Hood daughter of Mrs. W. S. Wheeler, and George Fundas, the well known candy manufacturer. The affair took place at the home of the bride's cousin, Mrs. Robert S. Young of 502 Walsworth avenue, last evening at 8:30. The officiating clergyman was the Rev. Mr. Coates, pastor of the Evangelical Baptist Church of Berkeley. The bride was attired in a handsome princess gown of white messaline silk and carried a shower bouquet of bride roses, the conventional bride veil completing the costume. Mrs. P. N. Varellas attended the bride as matron of honor and wore an attractive gown of silky material. Mr. Varellas assisted the bridegroom. Two rings, according to an old German custom, were used at the ceremony, each wearing the golden symbol of love and duty.

Bower of Green.

The home of Mr. and Mrs. Young was beautifully decorated in pink and green, sweet peas, carnations and feathery greens being used in profusion. The tower window where the bridal party stood was transformed into a bower of green, from the center of which hung a wedding bell composed of pink and white sweet peas and maiden hair ferns. The stair balustrade was wound with ropes of asparagus ferns, festooned with bunches of sweet peas. In the dining room the same color scheme was used, dainty hand-painted place cards being at each plate, and the candle shades being of green and white silk. An immense wedding cake adorned the center of the table and at the conclusion of the supper was cut by the bride, each guest receiving a piece as a souvenir of the occasion.

Bride From Denver.

The bride came from Denver, Colorado, with her family last December, lodging in Berkeley, residing on Blake street. Three months ago today she met Mr. Fundas and the little god of love immediately took possession of their hearts.

Mr. Wheeler's business, which is that of contractor and builder, called him to Delta, Colorado, so the family decided to return to their former home. As a result of this decision Mr. Fundas, after much persuasion, obtained Mrs. Wheeler's consent for an immediate marriage. The Wheelers' start for Colorado next week and as their home was very much upset Mr. and Mrs. Young opened their house for the wedding.

The bride's going away gown was of Irish poplin of a silvery gray tint with hat and gloves to match. No hint was given as to the destination of the newly married couple, but after their return they will reside in Oakland. The guests were Mr. and Mrs. W. D. Wheeler, Mr. and Mrs. R. S. Young, Mr. and Mrs. P. N. Varellas, Mr. and Mrs. W. H. Carlier, Mr. and Mrs. Damjanakis, Miss A. Damjanakis, Miss Fern P. Carlier, Miss Victoria Ross, Miss Athanasion, A. Fundas, Mr. Martin Phillips and Mr. Brennan.

GOVERNMENT PREPARES SUIT

Final Plans Are Made in the
Institution of the Movement
Against the Powder
Trust.

NEW YORK, July 2.—Final plans for the institution of a government suit against the so-called powder trust, are now being made. There will be a consultation of the lawyers on both sides this week at Wilmington, Del., and arrangements made for the hearings which will take place in this city, Wilmington and several other places.

The powder companies under attack are capitalized at about \$100,000,000. The De Nemours Company of New Jersey and Delaware is the largest of the powder concerns under fire. The government alleges that this company is the holding concern for about seventy smaller ones all in the powder business and that prices are dictated by the holding company. It is alleged by the government that the trust is acting in restraint of trade and violation of the Sherman anti-trust law.

A special examiner will be appointed by the judges of the Second Circuit of the United States Court of Delaware. It is likely that the hearing will occupy a year or more. Next to the government suit against the Standard Oil Company now in progress, the powder trust suit will be the largest ever brought in this country.
